Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 03 February 0205.
2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. Claims 1-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Logue. The reference discloses a device and method of tracking breast feeding sessions including removable sticker 30 attachable to either the left or right side of the bra indicating which side was used during the last feeding session. Recording the time and length of the breast feeding session is not mentioned in Logue. However, it is well known to attach labels or stickers to clothing articles with written identifying information thereon. It is also conventional to note time, date, etc. of an event and record the same on paper or other writing surfaces. It therefore would be obvious for one skilled in the art to provide indicators (stickers) 30 in Logue with space for

recording the time and length of the breast feeding session, as a conventional means for conveying useful information regarding breast feeding.

2. Although indicators 30 (stickers) are shown attached to the nursing bra, it would be obvious for one skilled in the art to attach the same to a night gown or other item of clothing, or if the nursing bra is not worn, to accomplish the same purpose of indicating the feeding side.

3. Applicant's comments have been given careful consideration, however they are not persuasive. Applicant notes that Logue requires several elements to function, whereas applicant's invention only requires one sticker. However, applicant's claims do not specify the specific structure of the "sticker", but only that the sticker is placed on either side of the article of clothing. Sticker 30 in Logue performs this function. The fact that fasteners 20 are attached to the clothing to which stickers 30 are then secured does not detract from the applicability of the reference device. With respect to recording the time and length of the breast feeding session, it has been noted above that placement of indicia on a label or recording the time of an activity on a writing surface is conventional. Placement of such indicia on sticker 30 of Logue would be an obvious way of recording this information.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
